

## PREFACE

The Cusco Region is well known as historical and cultural patrimony of humanity, because of the immense archaeological remains and great diversity of flora, fauna and natural climates that give a great potential for tourist development. These elements has been generated an important regional development that involves activities such as crafts, construction, services and food, among others.

This world recognition makes of Cusco a window for regional products. Besides, the diversity of natural resources, gives Cusco an important exporting potential for its innumerable products and Pymes, its population with vocation and enterprising attitude, as well as the commitment of all the people involve on improve the productivity of the region in order to get competitiveness and economic growth in benefit of the whole population. Cusco has an important variety of products for exportation of minerals, coffee, stews, crafts, colouring achiote, white giant maize, cocoa and agribusiness products.

The Decentralized Office of the Ministry of Foreign Relations in Cusco, has the pleasure to present, a list of 49 Cusquenian companies which already export or have the potential to do it. This list has been consolidated on the basis of the important support of the Engineer Ernesto Velarde, Manager of the Executive Regional Exporting Committee (CERX). The aforementioned committee, from which this Decentralized Office belongs, is working on the basis of an Operative Annual Plan that has as its principal goals the promotion of small and medium exporting companies in the Cusco Region, establishing a linkage with the Peruvian Embassies and Consulates abroad through the offices of commercial promotion.

In this context, we consider this first database of Cusquenian companies interested in announcing their exportable offer, as an initial instrument to explore business possibilities with other companies around the world.

The Decentralized Office of the Ministry of Foreign Relations in Cusco, in coordination with the Management of the CERX and with PROMPERU can offer in addition specialized information about the different exportable products recorded in this document.

**Cord Dammert**  
Regional Director in Cusco
